Our investment offerings are based on a robust investment selection process established in collaboration with the Banque Transatlantique Group teams:

- A strategic allocation committee to define investment policy: selection of investment themes and development of investment scenarios, definition of asset allocation structure and choice of market exposure;

Drawing on research conducted by our own teams and experts at Banque Transatlantique Group, we have selected and maintain a rich investment universe with an open architecture that incorporates a wide variety of instruments.

The management teams, supported by the Bank's tools and platforms and a network of carefully selected partners, ensure that your orders are executed on the best terms for each transaction.
